

And in the Banquet Hall, Wine Bar, Hotel, Country Club, Casino, Convention Facility, Catering and Party Rental!

Simply sparkling glassware... fast.

The Bar Maid GP-100 Commercial Glass Polisher is an easy to use, lightweight, portable glass polisher that greatly reduces labor costs, broken stemware and risk of cut injuries associated with manual glass polishing while achieving better glass polishing results.

Five highly absorbent polishing heads and a forced hot air blower dry and polish glassware spot free in 5-10 seconds. No need to use a towel that you're not sure where its been, costly coffee filters or a dirty hand. The soft polishing heads provide a more thorough, sanitary and consistent polish all the way to the bottom of the glass and reduce risk of broken stemware and injuries.

Long-lasting polishing heads are easily removable for cleaning with mild detergent (no sanitizer). The only other maintenance is occasionally cleaning the air intake on the bottom of the unit.

Champagne flute and extra tall carafe polishing heads are available.
